

COMPUTING

MERSEYSIDE LABOUR MARKET

The skills you gain from computing are transferable and desired in most other job sectors such as business, professional services, education and many more. For most computing careers you will require the technical understanding alongside an eye for detail, good communication and problem-solving skills. One of the six skills for growth in this county is to develop ownership and shared responsibilities for investment and ICT. IT Engineers in East Merseyside can earn an average of £33,700 per year, whereas a Senior Network Programmer can earn up to £60,000 per year (and be remote).
