

PHYSICAL EDUCATION

MERSEYSIDE LABOUR MARKET

Studying a sports course provides the basis for many different career areas and can open up international opportunities. Don't just think about careers directly related to sport, this subject area develops your research and data analysis skills, problem solving, customer focus and your communication skills. Consider health related careers and business management. There are over 7.2 thousand health and fitness clubs in the United Kingdom, with over 10 million combined members. The North West has 40 gyms per one million households. A Sport and Fitness Centre Supervisor in Liverpool can expect to earn just over £30,000 per year.
